

Wood Booth Seating

Model 780

You're not going to find a better built wood booth. (And the rustic design looks great in any casual environment.)

Our wood booth seating is created by exceptional craftspeople who labor over every detail to make sure you have a beautiful product that's comfortable, durable and easy to maintain.

We even test our products to our exacting standards derived from ANSI/BIFMA. It's the only way we know to absolutely ensure that our products can stand up to the punishment they'll receive day in and day out.

No one takes more care to build you a solid wood booth. And that's why nobody builds a better one.

Plymold. More than you expect, exactly what you need.

Plymold offers a complete line of furnishings that include wood booths, upholstered seating, outdoor furnishings, and even custom millwork. Our people and our production capabilities enable us to design and build anything you need to create your décor.

We produce the very best furnishings by selecting only the best materials; using exacting production standards; insisting on consistent quality control; performing thorough, continuous testing; and achieving an on-time delivery record of 99+%.
